

## BTLS Business Thinking and Leadership Styles

### *Integrative thinking in business*

#### **Brief Overview:**

The BTLS Business Thinking and Leadership Styles Profile assists in becoming a highly skilled thinker who knows his/her own thinking preferences and can leverage these for greater business achievement, interacting with colleagues and customers alike and even for personal achievement such building career success.

#### **Workplace Innovation:**

The BTLS Business Thinking and Leadership Styles provide context about your approach to Communication, Behaviours and Workplace Habits, Innovation, Leadership and Coaching and can be used in leadership and management programmes, personal development, conflict management/-resolution and team building.

BTLS Business Thinking and Leadership Styles is a modern version, business orientated thinking styles profile in personal development and innovation - it's a non-psychometric on-line tool, easy to use and to debrief. Building on years of proven thinking research, the BTLS approach makes it accessible to everyone without constant support from specialised HR staff.

#### **BTLS Results:**

- Understanding Oneself and Your Colleagues/-Customers Around You
- Understanding Your Approach to Leadership within Groups
- Understanding Your Approach to Coaching of Individuals
- Building a Consistent Workplace Innovation Orientation
- Innovative Problem Solving Approaches for Business Issues
- Managing Organizational Culture Changes
- Develop a Customer Centric Orientation
- Increase Job Satisfaction and Decrease Staff Turnover
- Improve Decision Making, Problem Solving, and Planning Skills
- Contributing to Career Building
- Build Effective Teams
- Differentiate your Organisation from others
